CARVER

The Classic American Adventure

1980
CRAFTSMANSHIP: A TRADITION

For over 25 years, Carver craftsmen have been perfecting their boat-building techniques. Every phase of development, every element of construction, is carefully planned and tested in Design and Engineering, where talented professionals apply their years of experience to creating exciting new models. Cruisers with comfort-

able, well-appointed cabin areas, spacious decks and performance-proven engines.

And craftsmen play a vital role in every phase of construction, beginning with fiberglass lay-up. Each mold is tooled to perfection, reflecting Carver quality in each hand-laid fiberglass part.

Teak and mahogany are used on the exterior and interior, respectively, for rails and trim as well as for tables, lockers and cabinets inside the cabin. Artisans in the cabinet and trim department follow precise specifications in cutting and assembling components. Each piece is cut on a carefully engineered jig to insure uniform fit with adjoining assemblies.

Professionally-trained crews install the engines and underwater gear. Because Carver offers a variety of engine options, crews are trained to install each engine for maximum performance and efficiency.

And, of course, no boat is complete without detailed inspection. We want to be sure that every cruiser we build is worthy of bearing the Carver name.
OFFSHORE 2347

The Fisherman’s Choice

If you designed your own fishing cruiser, you couldn’t come any closer to perfection than the 23-foot Offshore! The self-bailing cockpit, 2 fish/bait wells with seacocks, 2 lockable tackle storage bins, removable storage transom wells and anti-skid decks make fishing a true pleasure. Convenience features include 2-sleeper cabin, stainless steel sink with manual water system, enclosed private head compartment and additional storage.

Options: Raw water washdown • self-contained head • portable alcohol stove • electric/hydraulic trim tabs • Mercruiser fresh water cooling • fiberglass swim platform • 5 optional gas stern drives plus single stern drive diesel • and more.

Profile:

- Length (center line) 23'0" 7.00M
- Beam 8'6" 2.44M
- Weight 4000lb 1814kg
- Height (above water) 6'10" 2.08M
- Cabin headroom 72" 1.83M
- Sleeping capacity 2
- Water capacity 15gal 57L
- Standard fuel capacity 74gal 280L
- Propulsion system Single I.O.
- Draft 34"

*Includes stern drive

(Your Carver dealer has specifications for diesel-powered boats.)
Montego 2357
