For 1998, we’ve taken the comfort and functionality that’s synonymous with Carver’s Mariner and surrounded it with bold lines, smooth curves and a distinctive character all its own. The result? Without question the most unique and compelling Carver design ever.

In true Mariner tradition, the 350 features extra wide gunnels for safe and convenient access to the bow. And, like its predecessors, the 350 provides bridge access from both topside and below. Once on the bridge you’ll discover seating for eight, an optional wet bar, and volumes of storage. Step forward and you’ll find the best seat in the house - a unique double-wide foredeck lounge that quickly converts to a sun pad.

Below deck, the 350’s single level cabin creates a spacious atmosphere filled with entertainment options including a 20” TV and VCR. Forward, the master stateroom includes a double berth with access to the head compartment. Aft, the salon features a sofa bed and convertible dinette. Options like a coffee maker; microwave; dual voltage refrigerator/freezer; and 2-burner electric stove with optional oven help make the 350 feel just like home.
**Standard Equipment**

**Helm Equipment**
- Rudder style switches
- Engine synchronizer gauge
- Electric/hydraulic trim tabs
- Ignition lighter
- Compass
- Engine hour meters
- Console instrumentation: backlit speedometer, tachometer & voltmeter, tilt helm
