On your new 440 Trojan Express by Carver, getting wet and wild just got a whole lot easier. With its available new hydraulic lift platform featuring drive-on capabilities and stowage for two personal watercraft, you can’t get any closer to the water than on your new 440 Trojan.

Yet, when its time to dry off you’ll find the 440’s new three-stateroom layout and elegant cherry wood interior both inviting and accommodating. Forward, the master stateroom features his and her cedar-lined hanging wardrobes, a queen-sized berth, and private head compartment. Aft, the portside guest suite also features a queen-sized berth, private head access, and a cedar-lined hanging locker. Starboard, a third guest stateroom features another large berth with sliding privacy door.

When its time to catch some rays, step topside and you’ll find the 440’s expansive cockpit quite accommodating with its wraparound lounge, convertible sun pad, and available wet bar. Forward, the sporty new helm console features cherry wood style dash and full Raytheon® navigation package including: plotter, GPS, VHF radio, depth sounder and radar.
Specifications
