Carver's largest aft cabin cruiser, the 500 Cockpit Motor Yacht, blends true motor yacht luxury with open air excitement. Topside, the 500's spacious cockpit, swim platform and integral staircase provide easy boarding and the perfect stage for water sports.

Below deck, the 500 offers two lavish floor plans. The first, a standard three-stateroom layout, offers sleeping accommodations for eight. The second, an available two-stateroom version, offers a large entertaining area and the flexibility of a movable dinette and furniture.

Either floor plan provides a master suite aft with a queen, inner-spring island berth, private head with stall shower, and direct access to the cockpit. Forward, a second master suite features an island berth and private access to a complete head with stall shower. For the chef, 500's unique galley-up design offers a full compliment of appliances and convenient access from both topside and below.

Combine these features with an oversized salon, aft deck hardtop, available aft deck and bridge enclosures with air conditioning, and a variety of entertainment options, and the Carver 500 CMY becomes perfect for an evening cruise or that extended vacation.
