With the hectic schedule that drives your busy day, you'll be happy to know there are still a few pleasures in life you don't need an appointment for. Like a relaxing afternoon on the water - and the refined luxury and comfort that await you aboard your new Carver 530 Voyager. In fact, while aboard your new 530, the only appointments to concern yourself with are those we've built in.

Feature-packed and well-appointed, Carver's new 530 Voyager offers contemporary styling and traditional Carver comfort. For openers, the boat's cockpit-level salon and fully-equipped galley are accessible through a double-wide, patio-style sliding door. Step inside the boat's expansive salon and you'll admire how the large tinted windows, cherry wood interior, Avonite® countertops, fine furniture, and numerous entertainment appointments give this new Carver a mega-yacht feel.

Forward, the 530's dinette/lower helm configuration, with seating for six, surrounds the captain with friends and family while keeping guests involved in every aspect of your voyage. The ship's complete lower helm arrives with an overhead console and a generous navigation package that can include popular lower helm equipment such as: a video monitoring system, GPS, radar, plotter, auto pilot, and more. A convenient ladder also provides safe and easy access from the lower helm to the command bridge above.

Down below, three translucent skylights illuminate the 530's three private state-rooms including: a luxurious master stateroom aft, a stately guest stateroom forward, and a side stateroom with bunks or optional office. Amidships, the master stateroom boasts an inner-spring, queen island berth, optional entertainment center, plenty of hanging storage, and a private head compartment with separate tub/stall shower. Forward, the guest suite also features an inner-spring queen island berth and hanging locker with plenty of storage.

Carver's 530 Voyager will be available later this summer. For more information or to locate the Carver dealer nearest you, please call (414) 822-1600 or write the Carver Boat Corporation, Box 1010, Pulaski, WI 54162.
