

31

Montego

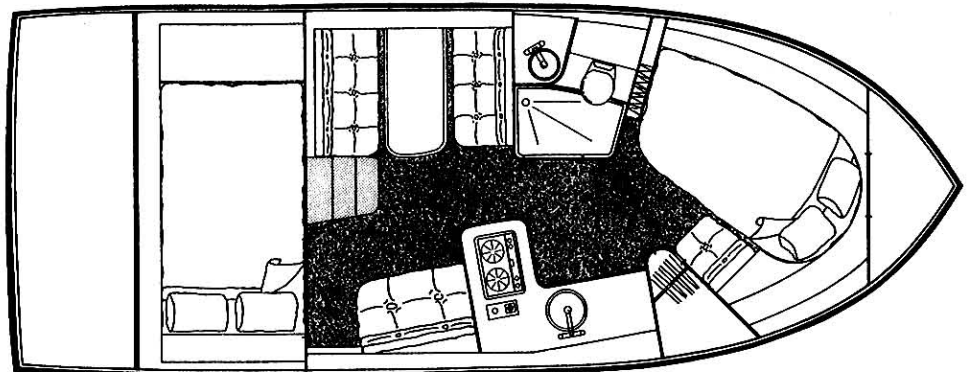

The striking good looks of the 31 Montego are the result of sleek hull and deck lines and stylish exterior graphics. Cockpit features such as the cockpit lounge, wet bar and integral swim platform are both convenient and functional. The interior of the 31 Montego offers the comfort and privacy that

only a Carver can provide. Double cabin accommodations together with the convertible dinette provide sleeping room for six. The clean, contemporary interior provides a stylish, yet warm and open feeling.

SPECIFICATIONS

LOH	30'8"
Standard LOA	34'0"
Maximum LOA	37'2"
Beam	11'0"
Draft	37"
Bridge Clearance	7'8"
With Optional Arch	10'0"
Deadrise at Transom	18°
Dry Weight (approx.)	12,100 lb.
Cabin Headroom	6'5"
Sleeping Capacity	6
Fuel System Capacity	150 gal.
Water System Capacity	52 gal.
Waste Capacity	37 gal.

Carver 31 Montego

STANDARD EQUIPMENT

Exterior

Bottom paint, anti-fouling
3/8" welded SS railing
Sport helm with full instrumentation
Weather-sealed deck hatch with screen
Trim tabs
Fiberglass swim platform with ladder and fender storage
Cockpit wet bar with bottle and glass storage

Propulsion

Twin stern drive - gas
5.7L MerCruiser
AQ271 Volvo Duo-Prop
7.4L Bravo I MerCruiser
AQ740 Volvo Duo-Prop
Twin stern drive - diesel
AQAD 41 Volvo Duo-Prop

Hull Design

The Carver 31' running bottom incorporates a modified V-warped plane design that features a sharp entry at the stern (forward) which cuts rough water for a soft ride. Four lifting strakes and wide, hard chines provide additional lift and stability.

Construction

Every Carver hull utilizes the "hand-layup" method of construction. This method assures proper resin saturation, consistent thickness of material, and removes the possibility of air voids. Glass to resin ratios are better maintained through this method thus assuring consistent laminate strength. (Each individual hull, deck and liner is thoroughly inspected and tested to insure Carver glass to resin ratio design specifications are met.)

Gel Coat - Fiberglass components used above the waterline are coated with at least an 18 mil thickness of gel coat. All underwater surfaces of the hull are coated with a minimum of 24 mils of gel coat.

Fiberglass Laminate - The 31' Carver hull utilizes a layup schedule that includes 1 1/2 oz. chop strand glass and 24 oz. woven roving. Generous overlap of the individual laminates increases the thickness and strength in the areas of the keel and chines.

Deck Construction - The deck and superstructure are reinforced with 3/4" end grain balsa. 1/4" aluminum plates are utilized in areas of hardware installation. The deck is secured to the hull by a fiberglass adhesive and stainless steel screws every six inches along the gunwale. Heavy gunwale molding seals the deck/hull joint.

Carver prides itself on the fine workmanship that is found in each boat. Special attention is given to every detail, from the initial inspection of the hull to the hand finishing of the cabinetry. These special touches, combined with the dedication of our employees, are reflected in the pride of ownership of a Carver yacht.

Galley and Head Compartments

Pressurized water system
12 gal. water heater
Refrigerator/freezer, dual-voltage
2-burner alcohol/electric stove
Marine head with holding tank
Shower

Functional/Safety

Bilge pumps, automatic (2)
Horn
International Code navigation lights
Carbon monoxide monitoring system
Halon fire extinguisher system
Water tank level monitor

Electrical

Two marine batteries with selector switch
Bonding system
Dockside power, 120V/30 amp
Dockside power cord, 50 ft.
Voltmeter/ammeter kit
Interior light system, 12V

Interior

Choice of 3 color combinations
Dinette converts to double berth
Forward private stateroom
Private mid-cabin

OPTIONAL EQUIPMENT

Helm Equipment

Tilt steering wheel
Engine synchronizer
7" spotlight with remote control
5" spotlight with remote control
Cigar lighter
Compass
Engine hour meter(s)
Dual horns

Galley, Interior and Head

Galley blender
Air conditioning with reverse cycle heat
Shore water connector
Microwave
Recessed propane stove
Crown electric head
Electric flush head
Overboard discharge for holding tank
Engine heat exchanger

Weather Covers

Convertible top with boot
Convertible top and enclosure
Camper top with enclosure

Electrical

Dual dockside, 120V/30A
6.5 KW Kohler generator
20 amp battery charging system
Two heavy-duty batteries

Exterior

Cockpit carpet
Seawater washdown
Hand shower in cockpit
Icemaker in cockpit wet bar
Electronics arch
Heavy-duty gunwale molding
Bow pulpit
Windlass
Wire for windlass

Propulsion

Engine fresh water cooling
Fuel selector valves

Safety and Miscellaneous

4 lb. portable fire extinguisher
