

32

Mariner

The Carver 32 Mariner offers plush seagoing accommodations. The spacious bridge provides a comfortable all-weather command center and is accessible from the main cabin or cockpit. The salon has party-size space with seating for eight, including a convertible dinette that adds extra

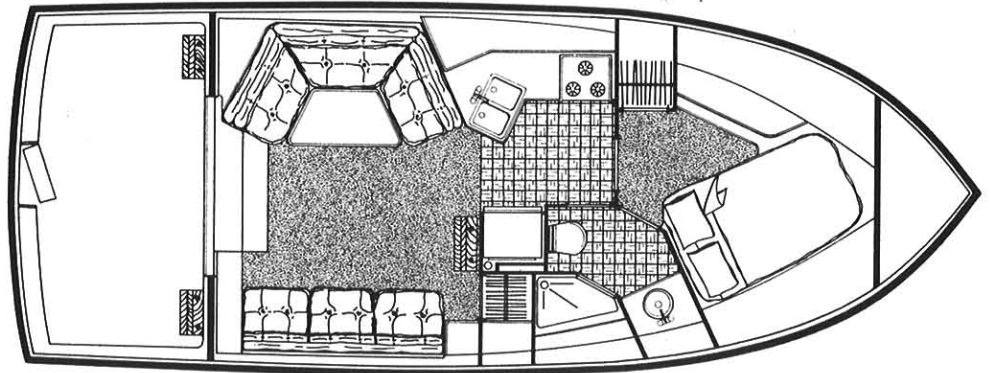

sleeping room. The single-level floor plan includes an owner's stateroom with large double berth and private entrance to the roomy head compartment. The complete galley includes a double-door refrigerator/freezer, plus spacious storage areas.

Design

The Carver 32 running bottom incorporates a modified V design. The forward stem allows for buoyancy, yet provides sharpness to cut rough water for a soft ride. Exceptional tracking performance is provided by a molded keel.

Construction

Hand layup method of construction guarantees the proper fiberglass to resin ratio, assuring consistent laminate strength throughout. The hull is made up of several carefully applied layers of 1½ oz. random strand mat and 24 oz. woven roving fiberglass. Generous overlap of these layers in the keel and chines increases hull strength, impact resistance and overall structural integrity.

Superstructure and deck surfaces are fiberglass-reinforced with ¾" end grain balsa; and ¾" plywood is used in areas of hardware installation. The deck is firmly secured to the hull by a heavy gunwale molding.

Every Carver boat is thoroughly inspected at each step of the construction process to guarantee it meets our demanding, high-quality standards.
