The Carver 32 Aft Cabin offers the luxury of two private staterooms with the master stateroom featuring both a single and double berth, a private head compartment and two hanging lockers. The forward stateroom has a V-berth and plenty of storage space. The forward head compartment is equipped with separate stall shower. In the spacious salon, you'll find a convertible sofa/double berth and a hi-lo drop leaf table. Up on the bridge, there's seating for five and full console instrumentation.

SPECIFICATIONS

Length: 32'0"
Beam: 11'7"
Draft: 34"
Bridge Clearance: 11'6"
Displacement: 12,000 lb.
Cabin Headroom: 75"
Sleeping Capacity: 7
Fuel System Capacity: 182 gal.
Water System: Total Capacity (hot & cold) 84 gal.

UNDERWATER GEAR

Propeller Shafts: 1¾" dia SS
Rudders: Bronze with 1¾"
SS Shafts

- Full width, totally enclosed
- Full length
- Two sliding doors
- Forward and aft

**Cabin**
- Recessed console
- Console sides
- Head room
- All overheads and doors

**Cabins**
- Full width, totally enclosed
- Full length
- Two sliding doors
- Forward and aft

**Firewalls**
- Full width, totally enclosed
- Full length
- Two sliding doors
- Forward and aft

### Construction
- Full hull construction begins with a fully cured gel coat of 13 mil thickness. Hard lead bottom of construction guarantees the proper fiberglass to resin ratio, assuring maximum strength throughout. The hull is made up of several carefully applied layers of 11oz random mat and 24oz woven roving fiberglass. Generous overlap of the glass in the keel and chines ensures hull strength, impact resistance and overall structural integrity.

**Superstructure and deck surfaces** are fiberglass reinforced with 30oz end grain burlap, and 15oz plywood is used in areas of hardware connection. The deck is fully insulated to the hull by fiberglass adhesive and SS screws, and sealed by a heavy gray marine gelcoat.

Every Carver boat is thoroughly inspected at each step of the construction process to guarantee it meets our demanding, high quality standards.
