MARINER

Plan A

Plan B

Salon
Looking Forward

Take a big step away from the ordinary and set yourself apart from the crowd in the 28 Mariner. Take command on a spacious bridge that seats five, can be instantly turned into a conversation pit, or become a plushly cushioned sun pad. Plus storage space you'll be hard-put to find on the bridge of any other craft in this class.

Go below and create your own environment by choosing the cabin plan best emphasizing your lifestyle. Discover the private forward stateroom that's common to both plans, and is really private. With 6'2" headroom, double berth, hanging locker, vanity with sink, it has an abundance of drawers and locker storage.

Now go aft and choose the salon floor plan to fit your personality. Here, in Plan B, is a spacious dinette to port and an entertainment center with optional bar, and ice maker, television or navigational electronics cabinet.

If it's extra accommodations you need, floor Plan A offers a luxurious lounge that forms a double berth in addition to the dinette. Altogether, you can sleep six in this stylish version.

Whichever statement of lifestyle you choose, you'll bathe in the luxury of a head compartment complete with shower. A full-size galley that's really full size, with electric stove, spacious refrigerator/freezer, a pressure hot and cold water system, and a deep stainless steel sink.

There's only one you, and there's only one boat to prove it.

The twenty eight Mariner.
