Cast your discriminating eye on the 32-foot Aft Cabin and embrace the aft cabin concept brought to magnificent perfection. Envelop yourself in the extraordinary privacy and personal luxuries that present themselves in unparalleled roominess.

Take a seat in the expansive salon and you'll feel as though it's a full living room. Here's room to move about and stand tall. Complete with a convertible sleeper-sofa and hi-lo table.

Whether you're heading for the open sea or cruising inland coves, the galley is equipped to make meals a breeze. Its electric stove and oven are always ready to create mouth watering temptations. Its upright refrigerator/freezer keeps your stores plentiful and cold. Add to that a deep basin stainless steel sink and full cabinet space with ample storage and you're ready to challenge the open sea for ports far from home.

And you'll cruise in unequalled comfort. The master stateroom sleeps two with more than generous storage space and the privacy of a large head compartment. Your comfort and that of your guests is made complete in the forward guest stateroom with sleeping for two and adjacent main head compartment that includes a stall shower complete with glass door.

The piece de resistance is a fully instrumented helm and a bridge that seats five in absolute comfort. Perfection will never be the same again. You know you can't settle for less.

36
AFT CABIN

Splendor on a grand scale, rivaled only by the sea and sky themselves, spreads delightfully before your eyes in delicately balanced blends of color, polished teak and fabrics. It encompasses you in the grandeur of the enormous bridge, and in the engulfing panorama surrounding you. Here, where even wind and sun caress you with respect, is room for six to ten to lounge in the embrace of elegantly upholstered seating.

Perhaps your choice is Plan B with its magnificently raised lounge that seats up to seven passengers who will share a spectacular 360-degree view. Feast your eyes on the gallery in this plan and you'll know instantly that its immense storage space, two refrigerators, and oven/oven are there to meet your every demand.

Whatever your choice in floor plans you will bathe yourself in luxuries few can enjoy. Classic teak parquet flooring, hand-crafted wooden accents by plush carpet and furnishings. And total accommodations found only in yachts much larger.

Come to where only the few deserve to be. And where compromise no longer exists.
