

2687 MONTEREY

1/4" = 2 Feet

The Monterey offers spirited, high-styled excitement in a sleek, yet roomy, 26' express cruiser. A spacious cockpit, plush helm with companion seats, convertible dinette, and V-Berth with forward hatch, all provide the comfort that extend the use of this cruiser beyond weekend boating.

Walk-around gunwales, a fold-down window which allows ventilation through the cabin door screen, a fully-equipped galley and enclosed head with vanity are key features which place the Monterey at the top of the line among 26-footers.

The hand-laid solid fiberglass hull, full fiberglass liner and structural bulkheads give this express cruiser true structural integrity and lasting value.

As with all Carver models, a long list of options allow you to personalize your boat according to your cruising needs.
