1/4" = 2 Feet

The 30' Sedan is one of the most versatile cruisers afloat offering a choice of 2 interior cabin layouts to meet your personal cruising needs. One features 2 private staterooms with the galley in the salon. The other features a single stateroom plus spacious salon and forward galley. Each provide a well-equipped galley, with dual voltage refrigerator, convertible sofa with hi-lo table, solid teak interior accent trim and head compartment with a fiberglass shower stall.

All surfaces of the cockpit and foredeck have an anti-skid surface found on all Carver boats. The self-bailing cockpit of these 30' cruisers provide generous storage space and the cabin allows for ample headroom.

Sleek off-shore styling combined with true structural integrity make this 30' cruiser a solid investment for the 1980's.
