

3396 MARINER

1/4" = 2 Feet

The 33' Mariner family cruiser has earned a solid reputation for her spacious and functional interior. A single-level floor plan allows for maximum utilization of cabin space for larger groups of passengers. While cruising or entertaining, passengers will especially appreciate the all-weather command bridge with seating for 7. And for added enjoyment, the aft bridge seats convert to a sun lounge.

With the private forward stateroom and the convertible lounge-dinette area, this cruiser can sleep 6-8 comfortably. The private head with vanity and enclosed shower stall and fully-equipped galley, featuring dual door refrigerator, 3-burner stove and pressurized water system, make this 33' cruiser the ideal family boat. Add to this the Mariner's dry stable performance and high quality workmanship, and you will find that getting away from it all was never quite as comfortable and convenient.

MODEL 3396 MARINER
