- Twin 302-4 Pleasurecraft V-drives (1.46:1 reduction)

PERFORMANCE DATA

Model: 2826 Voyager

<p>Power 330 hp MerCruiser I/O</p> <p>Gear Reduction 2:1</p> <p>Fuel Load 115 gal.</p> <p>Water Load 70 gal.</p> <p>Passenger Weight 320 lb.</p> <p>Test Date 4/5/78</p>	<p>Propeller(s) 19 1/2 x 21 MerCruiser</p> <p>ETR# 824578</p> <p>Wind N 5-10 MPH</p> <p>Temperature 45°F</p> <p>Course N-S Averaged</p> <p>Altitude 650 ft. above sea level</p> <p>Other Information Tests made with drive full in</p>
--	---

RPM	Trim Angle	Radar Speed (MPH)	Fuel Consumption (GPH)
1000	.5°	4.5	1
1500	1.0°	6.7	2.5
2000	3.5°	9.1	5.0
2500	6.0°	11.8	8.25
3000	7.25°	17.4	12.0
3500	5.0°	24.6	—
4000	5.0°	29.3	—
4500	5.0°	31.6	—

Recommended Cruising Speed: 1200-1500 rpm low speed cruise
3000-3200 rpm high speed cruise

The results above were experienced by the specific unit tested. Different boats, engines or test conditions could result in varied performance.
